

Using Digital Recordings from a substantive office website

In this example, we will use the website of the United Nations Office for Outer Space Affairs (<http://www.oosa.unvienna.org/>).

To expand the list of meetings, click the plus sign () to the left of the session title.

To collapse the list of meetings, click the minus sign () to the left of the session title.

Option 1: To listen to a specific intervention without downloading the whole meeting file

To open the streaming web audio player, click on the Speakers Log with Audio Recordings link ( [Speakers Log with Audio Recordings](#)).

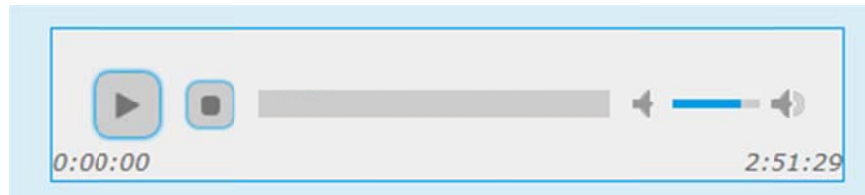

In a new window you will get the list of the interventions with an audio player. On the top right you can select the language you wish to listen to. The actual time of the intervention is under the *From* and *To* columns and the elapsed time, relative to the beginning of the recording is under *Time elapsed*. *Agenda Item* and *Remarks* are also noted, if any, along with the original delivery *Language* of the intervention.

To listen to an intervention, click the play icon () next to it.
